

Server Partners, LLC

Fast Facts

Server Partners, LLC, based in Indianapolis, Indiana, was formed in 2001 to develop the technology and business model used with FileEngine, the GNU/Linux-based file server appliance. Small businesses have found FileEngine to be an attractive alternative to most complex and costly Microsoft Windows-based servers.

FileEngine is a registered trademark of Kim J. Brand.

For FileEngine logos, contact info@fileengine.com.
